

Hi Everybody,

As promised, our first News Letter and Client Communication feedback.

### Crime Review

1. Approximately 2 weeks ago one of our clients, a lady, was brutally attacked by an intruder, who had gained access to her property via an empty stand next door, in Juweel Street.

The lady was taken to intensive care at Olivedale Clinic by our medical response company S.L.A. Medical Services, who were at the scene within a few minutes.

The lady is now out of hospital and on her way to a successful recovery.

Luckily our client had one of our panic buttons and, after she had pushed her panic button we were able to respond within a 2 minute time frame and the suspect was arrested by OnArmor Security. We also had a prompt response by the SAPS to assist in the arrest.

2. There have been 4 robberies and 2 attempted robberies in the Jukskei Park area in the last week.

Streets : Robyn / Juweel / Market / Chroom / Chrisoliet / Tieroog

### 3. SECURITY TIPS FOR THE MONTH

- Always lock your doors and windows when leaving the property for any length of time
- Be alert and observant when entering your property, day or night
- Make sure you have a remote panic button and that the batteries are charged
- Have all emergency numbers on speed dial
- Pay careful attention to any unusual behaviour of your pets, especially when arriving home
- Be observant and check whether you are being followed to and from home
- Try to have as many motion sensors or flood lights on your property as possible
- Always check your electric fence that it is free of hanging leaves or branches, and that it is connected to your alarm system. This is your first line of defence.
- Test your alarm system at least once a month to make sure the signals are going through to our control room.
- If you going for walks or a jog please take something in a form of a weapon with you, e.g. pepper spray / walking stick / dog / etc...

## STAY SAFE

Kind Regards,

**CEDRIC SMITH**

Operations Director
